Choosing the right needle.

As a guide always remember the general rule, the bigger the number the finer the sewing needle.

Sharps

These needles are the most popular needle for general sewing.

Size 2, 3 and 4 are suitable for medium to heavy fabrics.

Size 5, 6, 7, 8, 9 and 10 are suitable for light to medium fabrics.

Size 11 and 12 are suitable for fine fabrics or creating small delicate stitches.

Our advice would be to go for a size 4 to 7 for children, depending on their age.

Embroidery/Crewel

Embroidery needles have a long eye which makes threading the needle so much easier when using multiple strands of thread. They are also suitable for general sewing due to the large eye, therefore ideal for children and others who have difficulty seeing the needle eye.

Short Darners

These needles have long eyes and are used for mending and darning using cotton or yarn.

Short Darners

In addition to being a darning needle these needles are useful to use during basting and layering fabrics together.

Yarn Darners

These are long needles with long eyes making them ideal for spanning large holes during mending, using cotton or yarn. 14/18 are useful needles to use when sewing pieces of knitting or crochet together.

Curved Needles

Curved needles are great for those difficult tasks like sewing fabric boxes together or repairing lampshades.

Leather Needles – Hand and Machine

These needles are available for hand stitching and machines stitching and are ideal when working with leather, suede and other tough materials.

Tapestry/Cross Stitch

These needles have a large eye and a blunt round point designed for the use in needle point, petit point, countered cross stitch and plastic canvas work.

Size 13 and 14 is suitable for children to use when stitching on Binca or Aida.

Size 16, 18 and 20 is suitable for tapestry.

Size 22, 24, 26 and 28 is commonly used in cross stitch and petit point.

Chenille

These needles have a large eye and a sharp point are used in the art of crewel embroidery and ribbon embroidery.

Betweenes/Quilting

These needles are very short and fine with a round eye. The shorter length allows the quilter to create quick and even stitching.

Beading

Standard beading needles are very fine and long. These needles are suitable to use with beads, pearls and sequins. They are particularly useful in the art of threading and stringing pearls. Shorter beading needles are ideal for attaching beads to fabric featuring additional embroidery.

Milliners/Straw

These needles are long with round eyes are traditionally used in the art of hat making. They are also used for pleating and creating fancy stitching commonly known as smocking.

Machine Needles

Machine needles are always quoted in imperial and metric. Regular point machine needles are designed for domestic regular sewing and are used for basic stitching. For

Size 9/70 is suitable for light fabrics, silk and taffeta.

Size 11/80 is suitable for medium weight fabrics, cottons, satin and linen.

Size 14/90 is suitable for medium to heavy fabrics.

Size 16/100 is best for heavy fabrics such as denims, twills and curtain fabrics.

For synthetic, jersey and stretch fabrics use a ballpoint machine needle.

Superstitch

These needles create trouble free seaming and are the perfect complement to jersey and synthetic fabrics.

Jeans

These needles are designed for heavy duty stitching and from their name are suitable for denim.

Twin Pointed

These needles form parallel stitches.

Size 11 by 2mm is suitable for fine to medium fabrics.

Size 14 by 4mm is suitable for medium to heavy fabrics.

Bodkins

Bodkins and weaving needles are great for threading tapes and elastics.
